1,2,4-Triazolo[1,5-c]pyrimidine derivatives represented by the general formula (I) <CHEM> or pharmacologically acceptable salts thereof which show adenosine A2A receptor antagonism, wherein R<1> represents heteroaryl, etc.; R<2> represents hydrogen, etc.; na and nb represent each an integer of 0 to 4; Q represents hydrogen, etc.; R<4> and R<5> represent each lower alkyl or aryl, or R<4> form together with the adjacent carbon atom a saturated carbon ring when R<3> is any of (i) to (iii); or R<4> represent each hydrogen, lower alkyl or aryl, or R<4> and R<5> form together with the adjacent carbon atom a saturated carbon ring when R<3> is (iv).
